Few of our Esteemed Clients

Challenges

faced by our esteemed clients

Problem 1

Client was facing lot of challenges to achieve targeted cost saving through manual kaizen process.

The savings reported were not matching with actual savings claimed

Problem 2

Client was facing lot of challenges to get the suggestions as per the monthly target set.

This was really impacting ROI

Problem 3

Client was struggling with sustenance of ideas especially cost saving ideas and exchanging good practices within organization

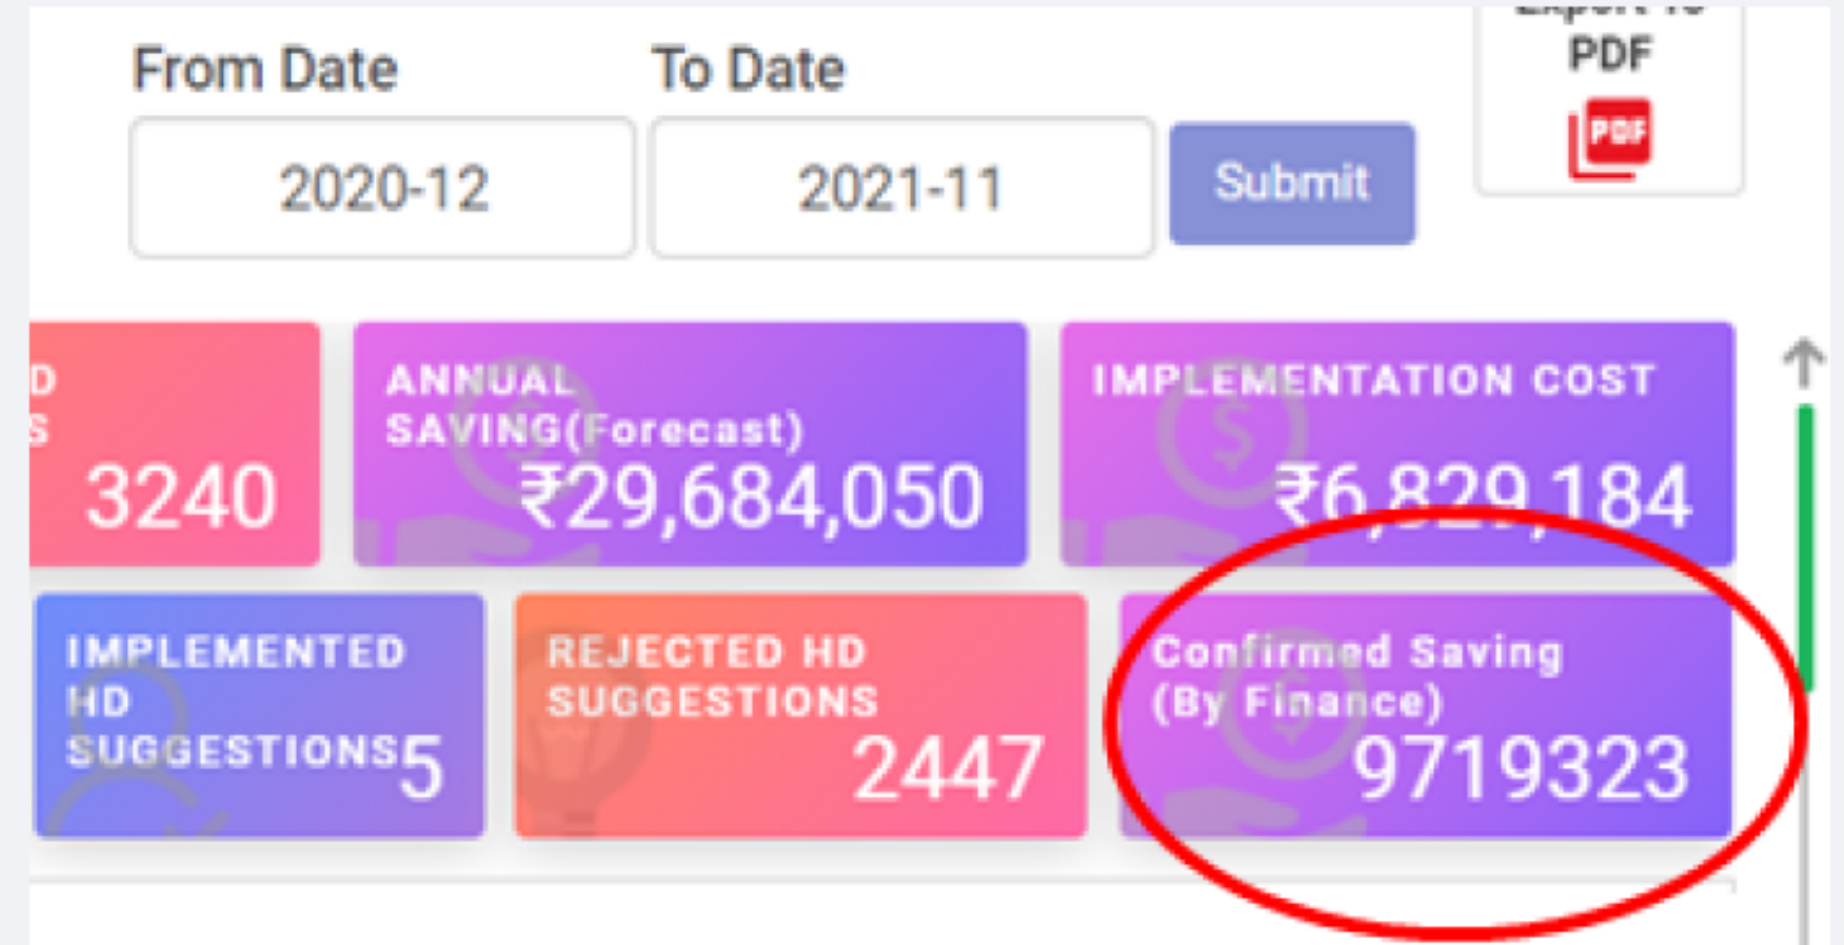

Solution 1

Implemented kaizen solution with below features

- Enabled brownie points redemption. The promotion of 'more cost saving, more brownie points' motivated employees and increased the number of cost saving kaizens
- Saving verification by finance team helped to get the accurate and confirmed saving results

97 Lakh saving in a year

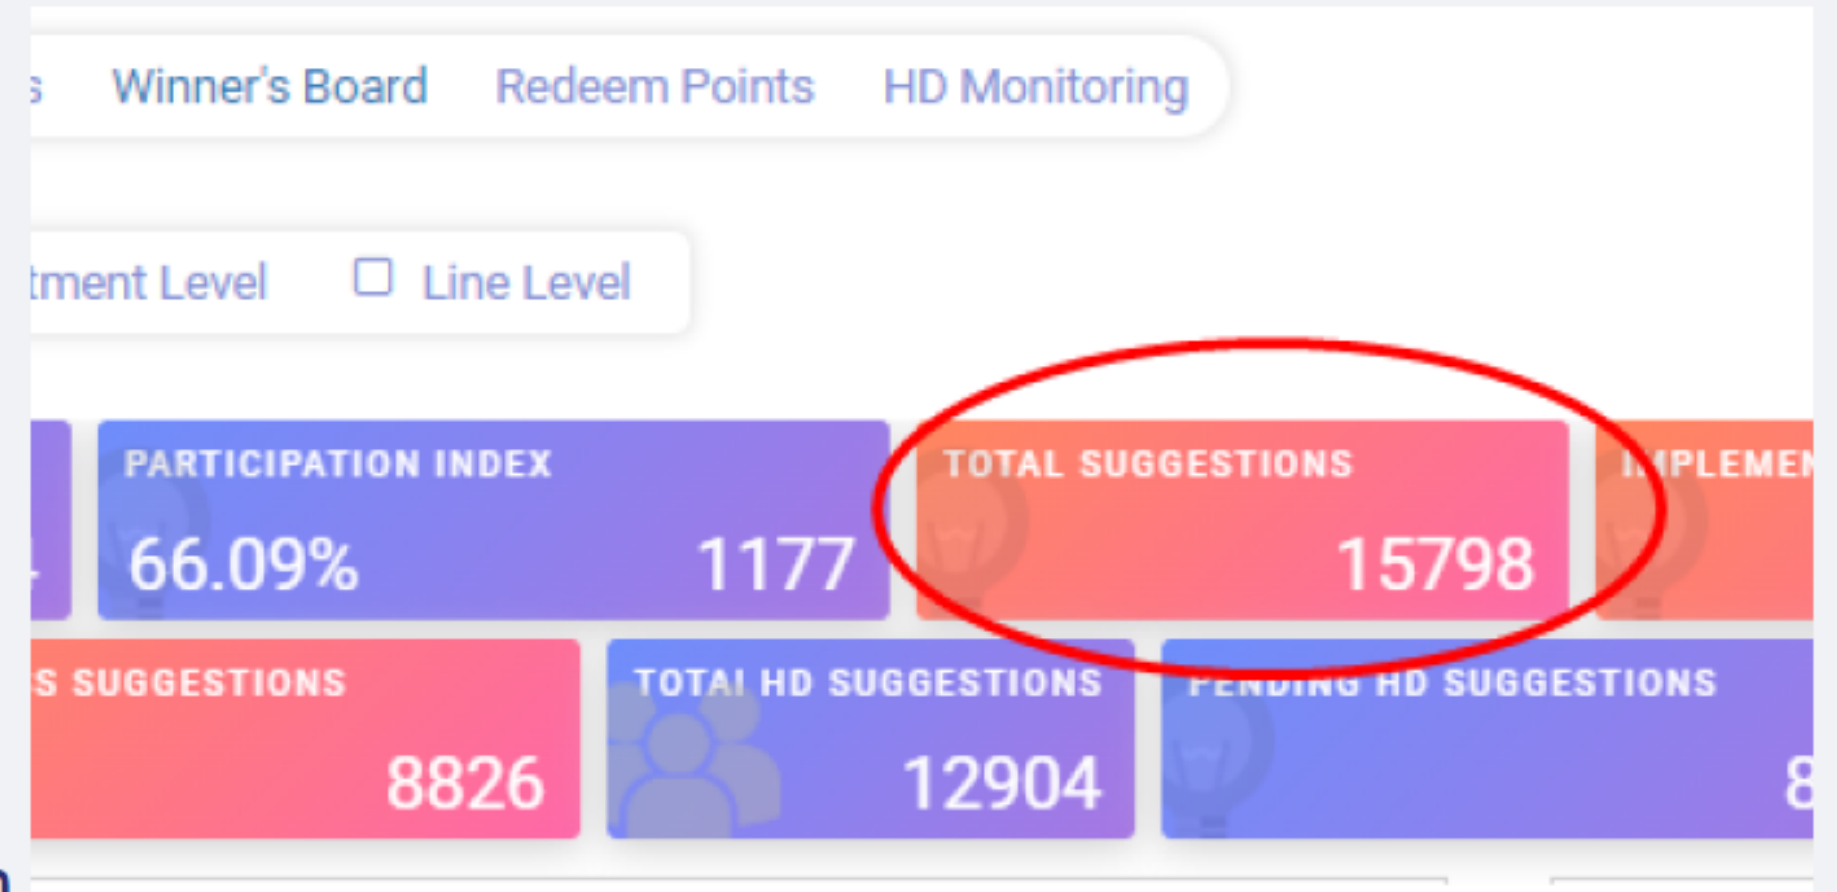

Actual dashbaord image

Solution 2

15,000 kaizens in a year

- Launch of kaizen portal really boosted the employee engagement but were not enough to meet the expectations. Post analysis, suggested to install the kiosk for employees to capture the kaizens during the breaks. This really increased the kaizen numbers.
- Further, we launched mobile app which made employees to post the kaizen from anywhere. We observed 60% hike in the kaizens

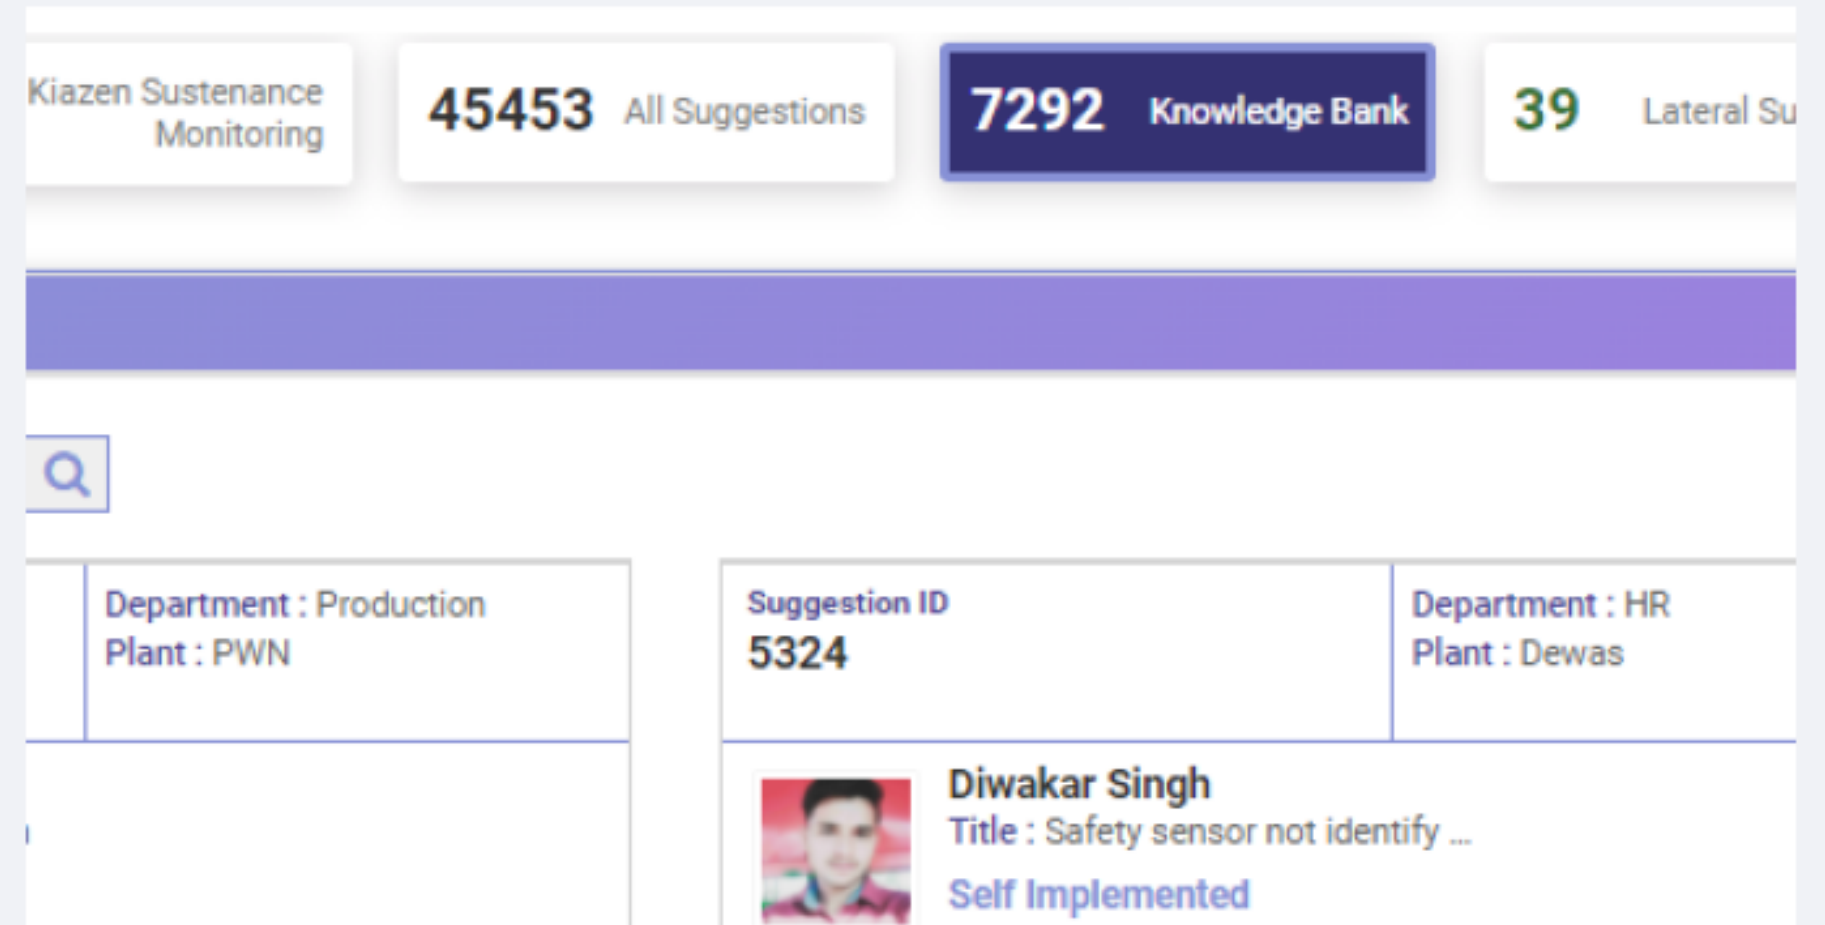

Actual dashbaord image

Solution 3

- Sustenance module helped client to monitor and audit the sustenance of kaizen and allowed to close the kaizen only once sustained. This resulted in confirmed saving through sustained kaizens.
- Further, Horizontal Deployment and Knowledge Bank features enabled plants to exchange the best kaizens and share the best practices

7,000 kaizens exchanged

The dashboard displays three main metrics at the top: 'Kaizen Sustenance Monitoring' with 45453 All Suggestions, 'Knowledge Bank' with 7292 items, and 'Lateral Su' with 39 items. Below these is a search bar and a table of suggestions. The table has columns for Department, Plant, Suggestion ID, and a description. The first row shows a suggestion from the Production Department at PWN plant, with Suggestion ID 5324, submitted by Diwakar Singh, titled 'Safety sensor not identify ...', and marked as 'Self Implemented'.

Testimonials

RISHI JAIN

DIRECTOR - ROOP POLYMERS LTD

"myeNovation provides a great e-platform for reinforcing Kaizen culture in an organisation. It has helped us drive employee engagement across the spectrum thereby contributing significantly towards process improvements leading to better quality, cost reduction and high morale"

SHRIKANT G MUNDADA

COO - METALMAN AUTO PVT. LTD.

"Thank you to the team at Greentin solutions for understanding our needs and customising your products to meet our requirements On the contrary you have also provided valuable inputs during the designing of KUBER . Wonderful product and an even more wonderful team. All the Best"

Testimonials

S SAKTHIVEL

Sr. MANAGER, MANUFACTURING & QMS - BBL DAIDO

"Myenovation application is user friendly. We have been using "Suggestion" module for the last one year and we were able to address key issues based on inputs from the operators in the form of suggestions. Support from vendor is extremely good for any queries. We would like to try other modules also in future. Good teamwork!!"

S. SURESHA

SR. GM - SIMPSON & CO. LTD.

"myeNovation Suggestion software by Greentin solutions has brought great changes for Simpsons. It has been a great support for employee engagement in providing valid & valuable suggestion and providing significant contribution towards process improvements. It has paved way for better quality and cost reduction."

Testimonials

DIGVIJAY S BALAJI

MANAGEMENT REPRESENTATIVE - SHANTI FOUMACH

"The software is well planned, structured and mapped according to industry standards for kaizens with proper approval processes. Web base platform works smoothly, giving access to efficient management of kaizens/suggestions for Superadmin as well as to individual users. As most of our employees are blue collar, mobile based application has helped us to engage more employees in kaizen journey, wherever they are and with ease, without affecting regular activities. Software allows partial customisation according to our needs, and greentin solutions team has worked smartly to engage maximum things in one packet like happiness index, thought of the day and many more. For minor issues also, customer support works great and issues are resolved timely."

AND MANY MORE.....

Thank You

For, giving us an opportunity
